5+ million users

4.6 stars on Google Play

99.94% last version crash free users

Achievements:

- Created a flexible Products List module that supports the entire application. Reduced the time to develop new features and accelerated the work on analytics.
- Proposed and implemented several functions that have brought a significant increase in metrics.
- Improved team processes

Stack:

- Kotlin
- Android SDK
- Firebase
- MVVM
- Dagger 2
- RxJava
- Retrofit
- Room
- Epoxy
- Glide
- and more

1+ million users

4.6 stars on Google Play

99.85% crash free users of last version I have worked on

Achievements:

- Have completely redesigned the architecture, carried out many refactorings. Due to this, the release cycle was reduced by 3 times, without losing the volume of release functions
- Increased crash free users from 80 to 99.85%
- Split the application into modules, untangled dependencies and integrated DI framework

Stack:

- Java/Kotlin
 - Android SDK
 - Firebase
 - MVVM
 - Dagger 2
 - RxJava
 - Kotlin Coroutines
 - OkHttp
 - Retrofit
 - Multithreading
 - Jetpack Compose
 - Custom Views
 - Picasso
- and more

February 2017 —
